News From the Andersons

Just “Gooder and Gooder” All The Time!

What a tremendous time it was to be with friends in the USA this year. Undoubtedly, it was one of the biggest blessings in a six-week time period of my life!

In Texas I had the joy of visiting with friends and going fishing for the first time in over eighteen years (since living in Nicaragua).

The ministers conference I attended in Arkansas has always provided a renewing of the call and vision has God placed upon my family and me.

For several years I had been experiencing much discomfort with a swollen prostate. New friends in Kansas City, KS arranged a doctor’s visit for me. The doctor performed a

total fifty tests on me and did not charge for the four times he saw me during the course of one week.

Also while in Kansas, friends helped me put together the first promotional brochure and video I have ever had in over twenty-seven years of ministry.

The folks in Michigan flew my family up from Honduras to be with me while I was there for a week. It was the first time Annie and Amy had ever seen snow!

My time spent helping friends near Oklahoma City cut and clear a tree was the most physical work I did during my entire six-week stay in the States, but it was very enjoyable.

Through spending time with dear

friends, including one of the pastor/speakers who taught at the conference in Arkansas, I was deeply encouraged by their commitment to begin visiting us here in Honduras.

I only need to spend a few minutes in the presence of Pastor David in Florida to be challenged and stretched to accomplish all God would have me become and do in this life.

Our Heartfelt Thanks, Folks

Annie and Amy are becoming increasingly aware of God's calling on their lives and that he is a provider for ALL that He calls one to do. Their confidence in Him has grown as a result of seeing how He provides for us and this ministry through folks like you. We deeply appreciate you for including us in your prayers and financial giving.

The financial blessings we experienced during this trip also exceeds any sum in a single time frame in the thirty years of my life as a Christian.

A Lesson From Nineveh

Here we are at the beginning of another school year and already have a record breaking number of children in our mountain-side Day Care programs.

We are teaching, feeding, ministering to, and providing health care to eighty-one new children attending the Day Care Centers, in addition to another seventy-nine who are in

our sponsorship program.

This morning, Nelly asked me to share a word with her about something that God has recently shown me. I immediately told her: “God spared Nineveh because of the thousands of small children that were too young to know the difference between their right and left hand!”(Jonah 4:11).

I am totally convinced that we are right in the center of God's will for our lives and reaching a people that are at the very center of His heart. Thank you for standing in partnership with us.
